Marketing Campaigns

As competition heats up, districts turn to advertising. **44**

PARAT Solutions
32-Unit Mobile
IT Transport Systems

www.paratsolutions.com/
Hardware, \$7,103-\$8,372

PARAT Solutions 32-Unit mobile computing transport system is a convenient way to transport, store, recharge and synchronize up to 32 notebook computers in an efficient and cost-effective way. Computers no longer need to be updated individually because the The PARAT Solutions Paradidact© can administer and synchronize the contents of an entire series of docked systems using wake on-LAN technology from a remote location. The 32-Unit system transforms a mobile cart into a portable notebook classroom. Integrated intelligent features include wireless access point, ergonomic docking, and embedded USB speaker system. The 32-Unit (V32) is customized and guaranteed to accommodate nearly every computer manufacturer's products with seamless network and power supply connectivity.
